MANY LUSCIOUS LOLLIPOPS

I can use adjectives to describe things around me!

Name: _____

Dear _____,

This week, I have been hard at work learning how to describe things around me using my five senses. When I describe things, I use words that tell how things look, smell, sound, feel and taste! Today in school, I used adjectives to describe a Dum Dum. Boy was it delicious! Now, it is your turn. Observe your Dum Dum and then you can give adjectives a try. Use your five senses to describe your lollipop. Let's see what you come up with. Remember, I know all about using adjectives. So if you run into any trouble, you can always ask me...your adjective expert!
